Water Supply to Mudigere Town

From The Dy Commr Kadur Distt

C 964/24 29 12 1924 5 1 25

LL 271 2 1

L

[illegible] the quota of Rs 9 7 payable by the Municipality for the scheme a sum of [illegible] 600 would be available for being placed at the disposal of the P.W.D. as soon after the scheme is sanctioned and as regards the balance of expenditure the Municipality applies for subvention from Govt. out of Rs 5 of the [illegible] Improvement Funds in accordance with the scheme sanctioned in order of 1st Octr 1924 and requests the grant of a loan of Rs 9001 payable in 5 instalments and for early orders to the Chief Engineer to [illegible]

N TES AND R S

The Chief Engineer has reported in his letter No. 9383 Dy 26th Decbr 1924 (R. 4445) that the proposal for water supply to Mudigere Town has been forwarded to the President Town Improvement Council for countersignature and the return of the same is awaited.

Submitted for orders

2 The Muni council ask for a grant of Rs 5147 from the Malnad Improvement allotment and from whatever source this may be sanctd. it will go to enhance State contribution by Rs 5147 As an alternative, the Muni council request the grant of a loan of Rs 5000 But the Dy Commr states that the Muni council will not be in a position to repay the loan and provide the annual maintenance charges amounting to Rs 3000 a year

3 According to the accounts of the Munity for 1923-24, the M council ~~has~~ have an ordinary income of Rs 5433 and an expenditure of Rs 4390. The investment in the Savings Bank is Rs 10,500 and the surplus current balance is Rs 2500 nearly The Muni Council can therefore readily pay a sum of Rs 13,000 towards the water supply scheme and the rest viz Rs 25,314 will have to be borne by the Govt

4 Even if the Govt is prepared to enhance their quota of the capital cost to the required extent, it is doubtful if the Muni council can increase their present income ~~from~~ of Rs 5433 by Rs 3060 The

7 In addition to a grant of Rs 4850 under this scheme, a loan of Rs 5000 may be made from the Malnad Improvement fund out of the nine years grant. If the usual allotment for water supply including of course the allotment for drinking water supply which is a special item is made there will be no difficulty in finding funds for this project. The project may therefore be approved and the work started with the promise of Rs 14,000 which the Municipal Council are ready to make

No 1389 d/28 7 25 from the Chief Engineer requests that the sanction of Govt may be [illegible] accorded early to the estimate for Rs 38,314 submitted [illegible] for the water supply of Mudgal town

Subd. with reference

12/8/25 20. Attention is invited to the 15th Member's ~~minute~~ [illegible] contained in para 7 above [illegible]

21. There is a provision of Rs 50,000 for improvements of water supply in Towns" under "30 Grants for public improvements". The Chief Engr has asked for Rs 9,500/- for this work during the current official year & it is proposed to allot this amount.

This is under orders separately. U.O. to Ch. Engr No 3728 d/13 8 25 (D no 7988 d/24)

HK
12 8 1925

Mudgal 22. The cost of the water supply scheme is Rs 38,314 and administrative sanction is asked therefor and not only half the govt grant of Rs 19,157 is wanted, but a further grant of Rs 5,000 also from Mutual Improvements Funds, as the Municipal Council can spare only Rs 14,000

23. In regard to this attention is invited to the remarks of the Member in charge d/ 1/7/25 (para) above. It does not seem possible to make any large grant as wanted from

NOTE—Contn Sheet

Marked improvement from the grant will also have to be made perhaps, as the Municipal Council will not be able to meet the maintenance charges of Rs 3000 & odd wanted if they were to raise any loan considering the ~~present~~ condition of the Municipality - They have proposed increase of resources even to meet the

23 The Chief Engineer has asked for a grant of Rs 5500 only this year for the project There will be Rs 14000 available of the Fund money

24 The question of sanction to the project is therefore for consideration

30/3

31/3

878/31 3 26

67 On going through the Budget Estimates I find that the Estimated ordinary receipts for 25 26 amount to Rs 4675 p a and another sum of Rs 870 is expected from interest due on investment (Rs 600)X, Sale of lands (150) sale of zinc sheets (Rs 100) &c — making a total of Rs 5545

X I presume this income will cease to exist when the [illegible] invested is used up for the waterworks

As against this the Estimated Expenditure amounts to Rs 5499 almost the whole of which is of a recurring nature and I cannot see how any portion of the expenditure can be or is expected to be reduced

In the circumstances it is a difficulty for me to understand how the Municipality can manage to 'scrape' together Rs 3500 p a to meet the annual maintenance charges of the works as stated by the Dep Com — unless the whole of this amount can be obtained by additional taxation

I fully sympathise with the people of the place in their efforts to secure a good water supply, ~~but before sanctioning the project I think we should have a clear idea~~ and I shall have no object

Routine Notes

[To be used only for notes requisitions etc not intended for permanent record]

N B —Should routine notes be written on small slips the notes must be copied or slips pasted on this form

76 The Vice President of the Mandal showed the accounts of the Cl today for the years 1920-21 to 1924-25.

The income & expenditure of the Mand actually for these years has been as follows-

(1) 1921-22

Income 4057-15-7 Expe 3057-4-10

The savings for the year was Rs1000/-. In this year, the Council deposited in the Savings Bank a sum of Rs 1000/-

The chief items of revenue were octroi, shop tax & pounds each contributing Rs1813, 300 & 250 respectively

(2) 1922-23

Income Rs 6135-4-1 Expenditure Rs 3594

Savings Rs 2541

This year ~~the~~ brought an additional source of income by tax on buildings. The receipts under these heads were 2235, 662, 389 & 1206

No amount was deposited this year.

3) 1923-24

Income Rs 7432-14-3 Expense Rs 3890-3-9

Savings were Rs 3542 10-6

The receipts under the several heads noted above were 1779, 561, 352 & 1573

The Council deposited a sum of Rs 2500 this year

(4 1924-25

Income Rs 5846 Expenditure Rs 3875-

Savings Rs 2037-13-1

This year octroi collection was 2155; tax on buildings Rs 1158 & Pounds Rs 659

Serial No

The Council also deposited a sum of Rs 2553/

77 The annual maintenance charges at the initial stage is said to amount ~~to~~ to Rs 2400 per annum & ultimately Rs 3080. It will thus be seen that the Council might be able to meet the maintenance charges proper for the initial stage. The chief items of revenue which it can depend upon are octroi, tax on buildings, pound collections & shop tax. They will also levy charges for water under which an income of Rs 500 a year is expected. ~~To~~ The Mun'l Cl will thus be able to meet the maintenance charges.

78 For the capital outlay the Council have ready Rs 14000/ of past years savings. This years savings may be utilised by them for meeting other urgent wants. The Govt have provided Rs 9500/- from this years prov'l grant for water supply in towns. The work can be started with the above 2 sums. The sum of Rs 9500 if not utilised upto the ~~end~~ ~~with~~ end of the year will lapse. If the balance of Rs 5000/- of the Govt share is not to be given by Govt ~~the~~ out of the [illegible] Dept grant

[App F III-2

General and Revenue
Secretariat

Ml File No 147 of 1924

Serial No

84) ~~Nef~~ It is further stated that retrenchment in Ml establishment result hereafter in an annual saving of Rs 600/- & it is hoped that ~~to m~~ on the whole the Municipality will save on an average Rs 4996 a year & deducting Rs 3000/- for maintenance charges of the Water Supply project they hope still to save Rs 2000/-

85) The DC recommends sanction to the Scheme and considers that the Ml Cl is capable of providing for the annual maintenance charges which amount in the initial stages to Rs 2400 only

Income from miscellaneous receipts is expected to yield	Rs 600
& average income from Water Cesses estimated at	Rs 500

~~How far these estimates are cau~~

86) It is not clear whether these are cautious estimates & realisation from ~~t~~ sale of Building sites which is ~~estd~~ estimated at Rs 500/- does not appear to be a recurring item of receipt - Allowing a sufficient margin for all this it may perhaps be said that the Ml Cl will be able to meet the annual maintenance charges in question

NOTE— Contn Sheet

29

Serial No

88 The project may be sanctioned subject to the following conditions

Capital Cost

This is estimated at Rs 38314 The Municipality is prepared to pay only Rs 14000 and requests that the balance may be paid by Govt as a free grant - This request cannot be complied with - The Municipal Council must provide its full share of one half of the cost It has got the money and there is no more urgent or important need than water supply and so the Municipality may be required to pay the whole amt As regards Govt share a sum of Rs 9500 has been allotted this year It may be used for incurring expenditure this year or better still it may be paid to the Municipality this year irrespective of the expenditure that will be incurred this year It is not possible to provide the whole of the Govt grant in next year's budget If Rs 9500 is paid this year the balance payable is Rs 9607 and this may be provided in next year's budget, and the actual payt limited to one half of cost of the scheme

2 Maintenance and Operation

The expectation of the Municipal Council regarding its future income is a little too sanguine but it appears from the

General and Revenue
Secretariat

Ml File No 147 of 1924

NOTE—Cont Sheet

Final Note by the Second Member of Council

Subject —

Water supply to the town of Mudgere in the Kadur District

These papers relate to the project for water-supply to the town of Mudgere in the Kadur District

X With his letter dated the 29th December 1924 the Deputy Commissioner Kadur District submitted for the sanction of Government certain proposals for financing a scheme of water-supply to the Mudgere town costing a sum of Rs 38 314 The project was considered by the Municipal Council at its meeting held on the 23rd November 1924 and has received its acceptance The Chief Engineer has also recommended sanction to the project

A note explaining the details of the proposed scheme accompanies the Chief Engineer's letter The question of providing Mudgere with a supply of good drinking water has been under consideration for nearly 40 years now and it has not so far materialised mainly because of the inability of the Municipality to bear its share of the initial cost and of the annual maintenance charges As an alternative attention was paid to the deepening of existing wells and the excavation of new ones in suitable localities but the results have not proved satisfactory and the water difficulty continues to be keenly felt as before Mudgere is a pucca malnad and has a population of nearly 1 300, according to the recent census The general health of the residents of the malnad has not shown any material improvement due to insanitary conditions prevailing there which arise largely from water distress The first need therefore towards securing an improvement in those conditions is the provision of a satisfactory system of water-supply and the improvement in the resources of the Municipality during recent years has enabled it to come forward with a practicable scheme for financing its share of the cost

In the ordinary course the Government and the Municipality concerned will have to bear the cost of water-supply projects in equal proportion In the present case however the Mudgere Municipality ha

X stated that it would be possible to make available a sum of Rs 14 000 for expenditure on the scheme immediately and has requested that the balance of its share viz Rs 5 157 may be paid by Government as a free grant This request it is not proposed to comply with The annual maintenance charges are estimated at Rs 3 060 and the Municipality hopes to provide this amount by improving its resources under octroi and by the levy of a water-tax It has been further elicited that by retrenchments in the municipal establishment and by the augmentation o

E its receipts in the above directions the Municipality can save on an

with enclosures average Rs 4 996 a year and is therefore in a position to provide the

W means necessary for meeting the annual maintenance charges which amount in the initial stages to Rs 2 400 only The Deputy Commissioner concurs in this view

The whole question has been carefully examined with reference t the financial position of the Municipality and its commitments In view of the importance and urgency of the scheme it is proposed in the accompanying draft Government Order to sanction the project subject to certain conditions detailed in the order, as regards the capital cost and the annual maintenance charges of the scheme

[illegible] The draft order has the concurrence of the Dewan and I solicit the gracious sanction of His Highness thereto

Water Supply to Mudigere Town

SIR

I have the honor to address you on the question of financing the Mudigere Water Supply Scheme With his letter No 7212 dated 11th --- November 1924 the Chief Engineer forwarded to the President of the Mudigere Municipality, a project amounting to Rs 38,314/- for water supply scheme and requested the Municipality to return the project with proposals to finance the scheme This project was considered by the Municipal Council in its meeting and has received their acceptance I submit for the information of the Government the copy of - the President's report dated 25th November 1924 with a copy of the -- resolution of the Municipal Council

2 Of the quota of Rs 19,157/- payable by the Municipality a sum of Rs 14 000/- would be available for being placed at the disposal of the Public Works Engineer for expenditure soon after the scheme is sanctioned by Government As regards the balance of Rs 5,147/- the -- Municipality appeals for subvention from Government out of the Malnad Improvement Funds in accordance with the scheme sanctioned in the order of 1st October 1924 As an alternative to this proposal, they request that a loan of Rs 5,000/- payable in 5 instalments may be granted to them According to the project prepared by the public Works Department the annual maintenance will cost about Rs 3,060/- and as it would be

Flag D

impossible

impossible for the Municipality to provide for the maintenance charges and repay the loan, the alternative proposal made by the Municipality is not practicable I would there request that a sum of Rs 5,000/- be allotted out of the Malnad Improvement --- Funds

3 The question of providing Mudigere with a good supply of drinking water has been engaging consideration for 40 years In the G O No 9832-4 Ml 363-10 dated 27th May 1911, the idea of any costly scheme of water supply to the Mudigere Town was given up mainly because of the inability of the Municipality to finance its share of expenditure It was proposed as an alternative that attention should be paid to the deepening of existing wells and - excavation of new wells in suitable locality Conditions have -- not, however, improved since then and the water difficulty has practically remained as it was The Senior Surgeon and --- Sanitary Commissioner during his last inspection in this District has laid stress on the fact that the insanitary conditions in the Malnad are due to a large extent to water distress Mudigere Town is a packa Malnad area and unless this long felt want is supplied there is no hope of material improvement in the general health of the residents So far as the initial cost is concerned the Municipality will contribute Rs 14,000/- and they ask for a grant of Rs 5,000/- from the Malnad Improvement Funds to make up the half share of the project

4 As regards the annual maintenance, the cost is estimated to amount to Rs 3,060/- and the Municipality propose to meet it out of their present resources supplemented by the levy of water-tax According to the current year's budget the receipts and expenditure practically balance, leaving no margin for additional expenditure and in this view the Municipal Council's proposal may appear to be over sanguine But there is reason to believe that there is considerable leakage under Octroi Provision has been made for the construction of an Octroi Katte and steps are being taken for prevention of this leakage

The

The Municipality expects a considerable increase of revenue from this source The levy of a water tax will bring in at least Rs 500/- The House-tax has not been revised for some years and its revision will also help to improve the resources of the Municipality

5 On the whole, there is every prospect of the Municipality being able to finance the annual maintenance charges and all that they expect is that the Government would ~~provide a~~ make up the full initial cost, of -- which they can provide Rs 14,000/- only In view of the importance and urgency of the scheme, I would respectfully appeal to Government for a sympathetic consideration of the above proposals and for early orders to the Chief Engineer to start the work

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,
Kadur District

SIR

With reference to your letter No L 31/ML 147-24 dated the 6th October 1925 enquiring why the annual maintenance charges of the Mudigere water supply should be so heavy as Rs 3,060, I have the honour to state that the estimate of Rs 3,060 provides for the ultimate requirements when the work may be completed and when the pump may have to be worked for the maximum period

2 Till the works are completed in all respects the Municipality may perhaps effect some savings by asking the Driver to do the work of the fitter also The consumption of fuel and lubricants will be proportionate to the duration of the working of the engine

3 It will thus be seen that although the ultimate requirements are estimated at Rs 3,060 the charges in the initial stage would be only Rs 2,400 as per details below -

Establishment -

Driver	Rs 40
Oiler & cleaner	Rs 15
Watchman	Rs 10
Fuel	Rs 120
Lubricants	Rs 15
	Rs 200 per mensem or Rs 2,400 per annum

The estimate received with your No L 3577 dated the 18th November 1925 is returned

Sir,

With reference to your letter No L 6469/Mul 147-24-11 dated 14-4-26 re the Mudigere Water Supply project, I have the honor to forward herewith a report together with the resolution of the Municipal Council in the matter

2 I would recommend that the project may be sanctioned as the Municipal Council is in a position to provide the necessary means for meeting the annual maintenance charges of the proposed Water Supply Scheme

I have the honour to be,
Sir,
Your most obedient servant.

Try assistant Commr
for Deputy Commissioner,
Kadur District
Hq - (Absent from Stn)

M L A

1 Capital cost - It is reported that the Municipality is prepared to pay Rs 14 000 only towards its share and requests that the balance may be paid by Government as a free grant This request cannot be complied with The Municipal Council must provide its full share of one-half of the cost It has got the money and there is no more urgent or important need than water supply

As regards Government share, a sum of Rs 9 500 has been allotted this year This will be paid to the Municipality this year, irrespective of the expenditure that will be incurred during the year The balance of Rs 9,607 will be provided for in the budget for 1926-27 actual payment being limited to one-half the cost of the scheme

2 Maintenance and operation - The expectation of the Municipal Council regarding its future income is a little too sanguine but it appears from the information furnished that it can manage to find the required amount every year This demand will be treated as a first charge on the revenues of the Mudgere Municipal Council, and in sanctioning the annual Budget Estimates the Deputy Commissioner should see that other expenditure is permitted only out of the balance left after necessary provision has been made for the maintenance charges in question

3 Proposals for reduction of expenditure and for improvement of revenue - If any definite proposals in this matter have been received from the udgere Municipal Council they should be disposed of promptly by the Deputy Commissioner if they are within his power of disposal or submitted to Government promptly for their orders when necessary If no such proposals have been - received they should be called for immediately and needful action taken at - once Measures for retrenchment of -- expenditure and increase of revenue - - within the powers of the Municipality - should be brought into force immediately
